"Art has the role in education of helping children become like themselves instead of more like everyone else" – Sydney Gurewitz Clemens

Art & Design

Intent

The National Curriculum for Art and Design aims to engage, inspire, and challenge pupils. It aims to equip children with the knowledge and skills needed to experiment with and create their own works of art and design. During their time at our school, each child will have the opportunity to design, practise and develop their skills and artworks. This will evidence a progression of techniques throughout the school years.

Art and Design is an importance part of our curriculum and it is our aim to engage and inspire all children through creative planning opportunities. We believe that Art and Design encourages children to develop their creativity, nurture their imagination and provides children with a variety of ways to express their thoughts, feelings and emotions.

We aim to give all children the confidence to express themselves through a range of chosen mediums. Our children are given the opportunities to experiment with a range of different materials, to use drawing, painting and sculpting techniques to bring their ideas to life, and to practise art and design techniques when using colour, pattern, texture, line, shape, form and space. As the children progress they will be encouraged to progress their skills through experimentation and developing their control and finesse.

We want our children to know how Art & Design has contributed to our culture and understanding of our history and the world. Our children will focus on a variety of key artists and artisans and they will begin to understand the development of their particular art forms. The children will have opportunities to take inspiration from these key artists and create their own artworks in their particular styles.
